

Atlantic Controls Newsletter

Atlantic Controls has teamed up with Southland Electrical Supply to provide you with pricing and availability of new surplus or reconditioned power distribution products and parts, which are obsolete or discontinued for all major brands. This includes a full range of low and medium voltage products, such as unit substations, switchgear, circuit breakers, transformers, automatic transfer switches, motor control centers, motor starters, contact kits, disconnects, variable frequency drives, soft starters, and hardware kits. We can also provide you with many equipment rentals for your temporary or emergency power requirements. Contact us today and let us quote your electrical needs.

GE Digital Energy introduces three new product offerings the SG Series UPS, the Zenith MDU and RDU Power Distribution Units and the Zenith DPB Distributed Power Busway.

Atlantic Controls would be pleased to provide you pricing on all of the following:

GE SG Series UPS 225-750 kVA with eBoost technology.

GE Zenith Series MDU and RDU Critical Power Distribution Units

GE Zenith Series DPB Distributed Power Busway

GE MDU Unit

GE SG Series UPS

Spotlight GE Medium Voltage Automatic Transfer Switches

GE Digital Energy now offers ZTSM and ZTSMD Medium voltage automatic transfer switches.

ZTSM and ZTSMD Features & Benefits:

- Front and Rear Accessible
- Vacuum Circuit Breaker Design
- Electrically interlocked for secure operation
- Complies with ANSI/IEEE spec C37

ZTSM Product Specifications:

Rated Voltage: 5 kV
System Voltage: 2.4 kV or 5 kV
Rated Current: 600 amps
Interrupting Current: 16,000 amps
Transfer Time: 6 Cycles

ZTSMD Product Specifications:

Rated Voltage: 5 kV , 15 kV
System Voltage: 2.4 -5 kV or 7.2 - 15 kV
Rated Current: 1200 - 3000 amps
Interrupting Current: 25,000- 49,000 amps
Transfer Time: 6 Cycles

Contact Atlantic Controls today for GE Medium Voltage Automatic Transfer Switch information and pricing.

We would be glad to assist you on your next ATS project
