Atlantic Controls Newsletter

Atlantic Controls was established in 1996 as a supplier for DC Lighting and 48V DC Lighting Relays. We are a specialty manufacturer/distributor of these items for major phone companies throughout New England. Our focus is to supply our customers with the highest quality, most reliable products in the industry.

We are also the exclusive sales representative for Hennig Enclosure Systems and Powersmiths International Inc. for energy management and efficiency products in New England.

Atlantic Controls recently added to its product line by becoming the exclusive sales representative for General Electric Digital Energy/Power Quality in the New England region. Some of these products are Automatic Transfer Switches (ATS's), Uninterruptible Power Supplies (UPS's), Surge Suppression Units (TVSS) and Emergency Paralleling Switchgear.

Spotlight Hennig Enclosures

Atlantic Controls recently completed a large 2 Megawatt Generator enclosure Project with a local generator distributor for jobsite in Oklahoma City. As the Northeast representative for Hennig Enclosures, Atlantic Controls will work with you from design specification through jobsite delivery to ensure your generator is enclosed with a Hennig quality Enclosure. Whether you are working on a new generator project or you are looking to retrofit existing generator housings, Atlantic Controls in conjunction with Hennig Enclosures looks forward to proving you all your generator housing needs. Please check out Hennig Enclosures at :
